

Press Release

Intelli Solutions - International Recognition in Europe's "Top 10 Digital Customer Experience Solution Providers"

Athens, October 2019. Intelli Solutions was rated among the top European CEM (Customer Experience Management) solutions providers by the CIO Applications magazine (www.cioapplicationseurope.com).

The CIO Applications Europe Editorial Board, in collaboration with a distinguished selection committee of Managing Directors, CIOs, VCs, industry analysts, conducted a thorough evaluation of CEM solution providers in the European market and approved the prominent ones. The evaluation came with a number of benchmarks on the ability of companies to deliver integrated solutions and services, leveraging new

technologies such as AI and Machine Learning to help modern European businesses streamline digital transformation effectively.

Regarding this honorary distinction, Mr. Panos Gialelis, Managing Director of Intelli Group said: *"All of us at Intelli, we are very proud of this new honorary distinction at a European level – a major reward for the hard work and dedication of the company's people over the years. The company's strategic objective remains the innovation and the continuous improvement of our products and solutions thus providing significant business value to our customers"*.
